

Membership Invitation

There are many reasons to be a member of the Greater Navajo Area Business Association (GNABA). As a member of the GNABA you will gain access to a wealth of information and support to help members with decisions that may affect their business for both short and long term planning.

GNABA needs your help, or someone you know. We are looking for local business leaders who would like to take an active role in helping form the new GNABA. Opportunities include Board of Directors, Committee members and volunteers willing to help the association make phone calls, answer phones, check messages and organize/process mailings. As the Grantville Redevelopment District gains momentum the GNABA will become the voice for the entire businesses community, as well as providing up to date information on current and proposed projects within the Grantville Redevelopment District. Become a member of the GNABA today and enjoy these and many more benefits.
