

## About GNABA

We at the GNABA take pride in helping promote businesses by utilizing our web-site directory with links to member's web pages. We hold many networking and informational events throughout the year encouraging sponsorship by local businesses at all levels. As we grow the GNABA will be using all types of mass media, throughout San Diego County, to promote the greater Navajo area as one of most convenient places to shop and do business.

As the Grantville Redevelopment District gains momentum the GNABA will become the voice for the entire businesses community, as well as providing up to date information on current and proposed projects within the Grantville Redevelopment District.

Become a member of the GNABA today and enjoy these and many more benefits..
